

## **Maxim Power Corp. Provides Investor Update**

**CALGARY, Alberta (September 25, 2019)**– Maxim Power Corp. ("**MAXIM**" or the "**Corporation**") (TSX: MXG) today provided an update of its operating, development and corporate activities. Please refer to the Investor Presentation dated September 25, 2019 available on the Corporation's website under "Investors and Corporate Information".

### **About MAXIM**

Based in Calgary, Alberta, Maxim Power Corp. ("MAXIM") is an Alberta focused independent power producer which currently owns and operates a 150 MW power plant near Grande Cache, Alberta. This plant ("M1") is nearing the end of its life under federal regulations and is being replaced with a state-of-the-art natural gas-fired plant ("M2") with anticipated nameplate capacity of 204 MW in simple cycle mode. MAXIM has the option in the future to increase the capacity of M2, in conjunction with increasing the overall efficiency of the facility, by upgrading M2 into a combined cycle plant. In addition, MAXIM continues to explore development options for its remaining permitted gas-fired generation capacity in Alberta and permitting of its wind power generation project. MAXIM trades on the TSX under the symbol "MXG". For more information about MAXIM, visit our website at [www.maximpowercorp.com](http://www.maximpowercorp.com).
